

Navigating a Route

After you have created a route, you can begin navigation immediately or save it to the Saved Routes list as explained on page 51.

When you are navigating a route, a guidance message and graphic view of turns in the route will display as you approach each one. Using the "Follow Roads" option from the Routing Setup Page increases the number of turns and displays an Active Route page with a list of turns. If you selected the "Off Road" option you can view only the list of points for a route from the Active Route Page. (See Routing Setup on page 64.)

To Preview the Turns for an Active Route:

1. From the Routes Page, highlight the route from the Routes list.
2. Press **ENTER** to display the Route Page for the route.
3. Highlight the "Navigate" button and press **ENTER** to begin navigation and display the route on the Map Page.
4. To view the list of turns on the route, press the **PAGE** key to display the Active Route Page. To view any individual turn on the list, use the **ROCKER** key to highlight it and press **ENTER**.
5. The page displays the turn and guidance text and a small field at the bottom showing the turn number in sequence and total turns in the route. To scroll through all turn previews, use the **ROCKER** key Up and Down arrows. To exit the preview page, press the **QUIT** key.
6. To stop navigating, select "Stop Navigation" from the Map or Compass Page and press **ENTER**.
